

AMENDMENTS TO THE SPECIFICATION

Please replace the paragraph beginning at line 20 on page 5 and ending on line 24 on page 5 with the following paragraph:

-- The elastomeric seal 60 is disposed on one side or top surface 12 of the carrier 10. The elastomeric seal 60 has a base 65 that includes a tab portion 66. The sealing portion 61 projects above the base 65 of the seal 60. The seal 60 has a pair of sides that form the edges of the base 65. The ~~tap~~ tab portion 66 may optionally have a different height than the base 65 and may be formed separately. --
